

SLOT-IN PC WITH INTEL® CORE i7 PROCESSOR (11th GENERATION)

OPS Intel Core i7

KEi7011

OPS Slot in PC

The Slot-In PC is a complete PC solution, compatible with all Interactive Display Panel & Large Format Displays featuring the OPS Slot.

Ideal for demanding Interactive Classroom Solutions & Signage applications, the new Core i7 processor (11th Generation) Slot-in PC provides amazing performance perfect for permanent impressions. Compared to its predecessor, the new 11th generation Intel® Core i7 processor delivers significantly increases in processor and graphics performance which make it a perfect match for superior applications in Interactive Classroom Solutions, Retail Signage and many more. The 11th generation of Intel Core i7 processors also supports native UHD and 4K resolution to create a better, crisper, and super realistic viewing experience showing more details than ever.

KEIKEN OPS CONCEPT: A SIMPLE PLUG IN TO THE FUTURE

The KEIKEN OPS PC is an onboard computer for Interactive Display Panel & Signage Displays that seamlessly integrates into the OPS slot on the back of the panel. When you turn on your display, the OPS PC automatically turns on as well. No cables or need to connect any other Windows devices. KEIKEN OPS PC features a number of variants with different specifications.

With no cables required due to internal connection for power, video, audio and control, the option board fits neatly within the display or projector profile for a more elegant installation.

BRILLIANT IMAGE QUALITY

All models have One Key Recovery to quickly restore your PC in case of any system failure. KEIKEN OPS PC is powered by Intel and support 4K/UHD @ 60Hz, for Brilliant Image Quality. An absolute must have for any Interactive Display Solution!

FUTURE PROOFING YOUR DISPLAY

Future savings are possible by upgrading only your OPS device or your display and not needing to change all hardware. Devices are exchangeable between compatible products either directly, or in certain cases, using a cradle.

Delivering Genuine Benefits

Powerful: Core i7 Processor (11th Generation) with Integrated Intel® Graphics

Stunning visuals: Intel® UHD Graphics provides high-end media and graphics capabilities for devices that display videos, 2-D/3D graphics and interactive content

Ultra High Definition: Native UHD and 4K resolution to create super realistic playback

High reliability: Ideally suited for 18/7 operation

Economical: Enjoy more performance while using lower power

Compact and fully embedded: All connectors are inside the displays including Power, Video & Audio Signals and RS232. No External Cables Required

Ideal for Interactive Classroom Solutions & Digital Signage: Compatible with OPS standard for optionslot products enabling easier installation, use, and maintenance of digital signs
